DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1, 2, and 5 are rejected under 35 U.S.C. 102(b) as being anticipated by Tomita et al. English abstract of JP-04-114059. Please note that the examiner is in the process of obtaining an English Translation of this foreign patent.

For claims 1 and 5, the English Abstract teaches a thermoplastic polyester resin composition that is obtained by blending 100 parts by weight of a polyester including polybutylene terephthalate, with 0.5 to 100 parts by weight of an epoxy group containing olefinic copolymer, and 5-150 parts by weight of an ethylene-propylene copolymer rubber. For claim 2, the abstract teaches that this modified olefinic resin is an olefin copolymerized with glycidyl methacrylate.

Response to Arguments

3. Applicant's arguments, see pages 6-19 of the response, filed 7/19/04, with respect to the rejection(s) of claim(s) 1-6, and 11 under 35 U.S.C. § 102(b) or 35 U.S.C. § 103(a) have been fully considered and are persuasive. Therefore, the rejection has been withdrawn. However, upon further consideration, a new ground(s) of rejection is made in view of the Tomita et al reference cited above.

Allowable Subject Matter

4. Claims 3, 4, 6-8, and 11 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
